Customer Journey Map

A customer journey map shows the steps an end user follows while understanding and improving their well-being using the HDI (Human Development Index). It helps identify user actions, interactions, thoughts, and feelings at each stage.

Phase of Journey	Stage 1 Awareness	Stage 2 Assessment	Stage 3 Improvement
Actions <i>What does the customer do?</i>	 - Learns about HDI - Searches for well-being information - Understands HDI factors	 - Checks health, education, and income data - Reviews current status - Identifies weak areas	 - Follows improvement suggestions - Tracks progress - Monitors overall well-being
Touchpoint <i>What part of the service do they interact with?</i>	 - Website / App - Internet search - Educational resources	 - HDI dashboard - Reports - Assessment tool	 - Recommendations - Progress tracker - Notifications
Customer Thought <i>What is the customer thinking?</i>	 - What is HDI? - Why is it important? - How does it help me?	 - Where do I need improvement? - Is my score good? - What should I improve first?	 - Am I making progress? - Is my well-being improving? - How can I maintain it?
Customer Feeling <i>What is the customer feeling?</i>	 - Curious - Interested - Hopeful	 - Concerned - Motivated - Focused	 - Happy - Confident - Satisfied

Process Ownership <i>Who is in the lead on this?</i>			
Opportunities <i>How can we improve this stage?</i>	• • •	• • •	• • •
